## Big Things on Civic Calendar

City May Bid Adieu To Freight Eyesore; Greet Navy Band, Pageant

United States Navy Band concert in Arlington Heights in the fall. A magnificent centennial celebration over the Fourth of July. Quick removal of the freight depot. These undertakings were considered in rapid fire order by the advisory committee of the Trade and Civic association at an emergency session held in the village hall, Monday night.

At an inspiring meeting of representatives of many of the leading organizations of the community, a "civic calendar" was opened for consideration that, if fulfilled, may prove to make Arlington Heights the most "live-wire" small city not only northwest of Chicago, but in Illinois and possibly in the country.

Removal of the freight house, public eye sore No. 1, and construction of a new building in a less conspicuous spot, took a big step toward realization when George Schneberger and Hugo J. Thal reported the results of recent conferences with the Chicago and North Western officials.

Plans for a new structure at a low cost have been submitted to the railroad and are ready for final approval. The proposition set before the railroad authorities asks for a new location approximately across from the Old Folks Home, or west of Vail st. and the park on the south side of the tracks. Final confirmation and selection of the place for rebuilding of the freight house is expected by the next meeting of the advisory committee, which has been tentatively scheduled on Monday, April 24.

A new passenger depot will follow in short order after the removal of the freight house, according to the present plans of the civic association.

Hopes for an unusual Fourth of July celebration took an unexpected turn when a representative of the John B. Rogers company, Ohio, unfolded a plan in which the community may show its patriotic spirit not only for the country, but, by its own right, "the patriotic for Arlington Heights."

Wheeling township passed its 100th birthday in 1937 without so much as a single "boom." The program outlined by Mr. Rogers of the Ohio firm would uncover the historical past of village of Dunton, its establishment and subsequent incorporation of Arlington Heights and awake the citizens to the heritage that belongs to them.

The program suggested would culminate in two or three day festivities, a pageant, picking a "Centennial Queen," a combined religious vesper service and other activities that would attract notice throughout the neighboring countryside.

The important thing, the local business men and women feel, was that the plan provided a means of paying for itself, and, probably, provide for the removal of the freight house, and other civic enterprises that the city may wish to undertake.

Representatives of organizations that attended, will carry their message to their clubs and bring a reply on the advisability of the program back to the association at its next meeting.

Possibility of the United States Navy Band giving a concert in Arlington Heights in the fall received favorable comment by the committee members, who are already endeavoring to find a suitable place to seat the thousands of people, who, it is believed, would attend such a concert. This is considered another profitable means of making Arlington Heights a more desirable place in which to live.

The Trade and Civic Association, Henry Mueller, president, and its advisory council, has "jumped the gun" in the estimation of neighboring communities which have proved lax in promoting their own interests. The local business men are in active support of the association. Their support of the organization, as evidenced by their courage in making Arlington Heights the most beautiful town at Christmas time, is already carrying the community to greater and profitable enterprises, throughout the year.

To the outsider, such activities can only spell "Live in Arlington Heights."

## Elk Grove Levies Relief Tax for 1939

With the possibility of the abandonment of the WPA by the government thereby throwing on the various townships the entire relief load, the electors of Elk Grove township voted a \$1,000 relief tax for 1939. The cost of relief under the present set up averages \$2,500 a year. There is at the present time nearly \$5,000 in the Elk Grove relief fund.

A general town tax of \$2200 was also voted, which means a tax rate of 6c. Herman Beer acted as moderator.

## Arlington Puts In Bid For '39 Safety Award

Chief Skoog of the Arlington Heights police department is making every effort to secure a national safety award for 1939. The first three months of 1939 have passed with no personal injury accidents which is an excellent start.

Mr. Skoog received this week the following letter from the National Safety Council, which is self explanatory:

April 6, 1939

C. H. Skoog,

Chief of Police

Your city is one of those in the 5,000-10,000 population group of the 1938 National Traffic Safety Contest, having but one automobile death within their municipal limits during 1938. By this narrow margin you failed to win a place on the National Honor Roll for cities of your size.

The committee of judges at their meeting in Chicago on March 30, asked that we extend to you their sincere regrets that this tragic mishap occurred and they hope that you will continue your splendid work throughout the current year. The National Safety Council recognizes that, in many cases, the element of luck is the sole factor in determining whether an automobile accident is to be recorded as a fatality or as a personal injury or property damage accident. Good fortune was not with you in 1938.

We hope that your 1939 observance of the three E's—Engineering, Education, and Enforcement—will bring you a place on the National Honor Roll of the 8th Annual National Traffic Safety Contest.

Sincerely yours,

Lyle E. Bland,

Secretary

## Men's Club To Hear About Counterfeit Money Friday Evening

"Counterfeiting" will be the subject of a talk at the meeting of the Presbyterian Men's club, Arlington Heights, Friday evening, April 21. An agent of the Secret Service Division of the United States Treasury Department will be the speaker.

The subject of counterfeit money is of universal interest. Money is a commodity that is used daily by everyone and yet few are able to distinguish between a genuine and a spurious bill.

An exhibit of bogus money will be used to illustrate the lecture. Everyone is invited to attend this interesting and educational program. Dinner will be served at 6:30. Call James Groves for reservations. Telephone 595.

## Rush Alterations In Rowdewald Building

Business is going on as usual in the Rowdewald building although extensive alterations are in progress which will make that store and news agency one of the most up-to-date establishments of its kind in the northwest suburbs. New equipment is being installed and the store proper is being reduced in size providing a second store which will be available for rent. A work room and office for use of the news boys is also provided in the plans.

The improvement is not confined to the first floor. Extensive work is being done in the basement which will provide plenty of room for storage and the new machinery that will be needed to properly operate the new "Thirst Appeal" fountain.

The Taylor Freezer, which will be part of the new equipment. Marvin and Leonard are a well-balanced team, and together make a combination that insures success for their business enterprises. Full details and opening announcement of the new store will be published next week.

## Job Open To Clerk And City Carrier At Arlington Postoffice

The United States Civil Service Commission announces an open competitive examination for the positions of substitute clerk and substitute city carrier at the post office at Arlington Heights. Applicants will be eligible for appointment only in the office for which examined.

The age limits do not apply to persons granted military preference because of military or naval service. Applications must be filed with the Manager, Seventh U. S. Civil Service District, Post Office Building, Chicago, not later than April 24.

Further information and application blanks may be secured from the local secretary, Rose M. Paton, at the Arlington Heights post office.

## Action Starts On Delinquent Personal Taxes

William Weber has been designated as the justice of the peace to handle delinquent personal property tax collection for the year 1937. He is mailing out this week the required notices of court action. Previous years he had been delegated the responsibility of collecting the Maine township delinquencies. This year, his work is being enlarged to include the townships of Hanover, Elk Grove and Wheeling.

County tax officials are making a renewed effort to increase the collection of these taxes. Too many people during recent years have been trusting to luck that they will escape tax penalties for their non-payment and there's a day of reckoning on the way. It is more important than ever that a settlement of some sort be made in every individual case.

Mr. Weber's job is to make adjustments where they are fair, but the indiscriminate disregard of personal property taxes is a thing of the past. All cases will be judged on their merits and Mr. Weber requests that persons receiving bills get in touch with him personally. There is no need or necessity to have a third party in the picture.

Two hundred and six votes were cast in the high school election. Arlington Heights polled 113 votes while Mt. Prospect polled 93. Those elected without opposition: Clarence L. Davis, as president; Walter C. Hanauer and Elmer F. Laurin as members.

## Naughty, Naughty, Des Plaines

Wm. Fabian, editor of the Des Plaines Journal, used two pages of his newspaper last week to prick the bubble that brought about the safety award of 1937 to Des Plaines in presenting a false report to the national organization and gave the name and details of three deaths that occurred within the city of Des Plaines that year and which would have barred that municipality from receiving the award.

## Urge Tax Payments By April 22

The country town collectors of the Northwest townships, are asking that all taxpayers get their payments in by Saturday, April 22. The law allows the local collectors to have the tax books for 21 days. At the time of the delivery of the books, it was thought that the personal property books would not be ready for about a week later than it finally developed that they were available.

Figuring the time when they expected to get their last book, the collectors of the Northwest towns set April 27 as their closing date. As things developed they should have set their closing date a week earlier.

In order to cooperate with the county treasurer's office and get their books back on time, the township collectors are asking their patrons to make every effort to make their payments by Saturday, April 22.

Because of the delay in getting out the tax bills, the entire schedule of collections was rearranged and bills reached the tax payers after the supposed penalty date of April 1. This has caused a great deal of confusion among the taxpayers as they have been reading in the Chicago papers that June 1 is the new dead line for the first installment.

However, it must be remembered that the country town bills were out before the Chicago bills, and that the June 1 deadline applies at the county building and not at the offices of the local collectors.

Therefore the township collectors are requesting the cooperation of the taxpayers in having all payments in by Saturday, April 22.

The cooperation of the country town taxpayers will be greatly appreciated by the township collectors.

## Pass Budget, Tax Levy; Adopt New Methods

## Recommendation Of Advisory Committee

Report of the citizens committee adopted by the Wheeling electors Tuesday was as follows:

The committee appointed April 4 at the town hearing has examined the affairs of the township. They have, by mutual agreement with the board of auditors and the supervisor, arrived at the following procedure, which needs no action from this town meeting.

The Supervisor has recognized the right and duty of the Board of Auditors to audit all accounts of the Supervisor in whatever capacity he may be acting, specifically including the relief accounts.

The Auditors have agreed to meet monthly to approve bills to be paid. The Supervisor has agreed to furnish a list of bills to be ordered paid to the auditors. Said list when approved to be spread on the town records, and signed by the auditors as approved. The Supervisor agrees to pay no bills without authorization of the Board of Auditors.

The Supervisor has agreed to keep the town books in the manner prescribed by the Board of Auditors, except that the relief books shall be kept as prescribed by the State.

The Supervisor has agreed to render reports to the Board of Auditors in the form demanded by them in order that the published reports of Town finances may be in such form that the public, from the reports, may easily determine the condition of town finances.

The Supervisor has agreed that the Board of Auditors may nominate an investigator for the relief lists. He will appoint said nominee as investigator and will pay him from the relief funds. The Supervisor will follow the recommendations of the investigator and in case of disagreement will pass the case to the Board of Auditors for final decision. The Supervisor will allow the Board of Auditors to scrutinize the relief lists and will follow their recommendations in amount of relief to be granted.

The Supervisor has agreed to keep the Supervisor's checking account for town funds exclusively. He will deposit all funds in this account and identify all deposits. He will pay out from this account all town disbursements and identify all checks. This agreement being made for the purpose of assuring a complete audit of funds received and disbursed.

Your committee recommended that in order that the affairs of the township be carried on in an orderly manner, the following resolutions be adopted.

Resolved, The Township of Wheeling in meeting assembled direct that Surety Bonds of an amount prescribed by law be placed on all officers of the Township, whose duties require them by law to be bonded.

And be it further Resolved that the township officials whose duties require them to approve said bonds are hereby directed and authorized to require from Township officials said Surety Bonds in a reliable company.

And be it further Resolved that said Surety Bonds be obtained and approved on or before May 9, 1939.

Set Palatine Land Valuations

The Palatine township land values were pretty well agreed upon last Thursday by the Assessor H. Deverman and his committee.

Deverman and his committee had a return engagement with the County Assessor's office.

They found the atmosphere at the county office much more congenial than upon the occasion of their first visit a few weeks ago and the county valuers were willing to listen to reason and hear logical arguments.

The result was that fair valuations were agreed upon in most cases where there were bitter disputes a few weeks ago. Mr. Deverman was very well satisfied with the results of the day's work, as were the members of the committee.

The Village committee succeeded in convincing the county office that there was no ground for some of the huge increases in values planned for the business district and the farm committee were also well pleased with the result of their efforts.

It must be remembered that the local assessor has nothing to do with setting the valuation upon improvements, houses, barns, etc. These valuations are set by experts from the county office and in a big majority of cases where people considered their taxes too high the reason lies in the valuation of the improvements and not the valuation of the real estate.

With equitable valuations on real estate set for the next four years the tax rate will depend upon the amounts of money levied by the various taxing bodies for their various needs.

CIVIC ORCHESTRA TO GIVE CONCERT AT ARLINGTON HEIGHTS SUNDAY EVENING

The civic orchestra of Des Plaines and Park Ridge, and in which several Arlington Heights musicians are members will give a concert at the high school Sunday evening, April 16. There will be no admission charge, but an offering will be taken.

Other school districts similarly benefited were Wilson school (large amount of work); Buffalo Grove school, interior painting; district 26 practically all the work needed; district 23 is the only school that did not ask for relief workers.

Nurse Jackson Greets Old Friends As She Buys New Pontiac

Martha Jackson, former Arlington Heights nurse, returned to the old home town Monday and had the pleasure of greeting Arlington Heights friends. Every day that the Downers Grove school is not in session, she has a holiday and she expects to use many of them to call on old friends here.

Incidentally, she went home with a new car, a Pontiac purchased of Harry Knaack.

## Rush On To Pay Taxes

The largest opening rush of taxpayers in recent years is reported this week by the township collectors.

The rush to pay the 1938 taxes has far exceeded the opening days business for several years according to the local collectors. Just what caused the good opening is not known, but the collectors agree that the getting back to the spring collection after all the years of uncertainty as to when taxes were to be paid has had a lot to do with it.

Albert Kraemer, collector of Elk Grove township, is wearing a broad smile "a wonderful opening," says Al. Wm. Annen of Wheeling township said, "It's the best opening in years." Tom Hart at Palatine declared "I was surprised at the good opening" and Ben Schroeder deputy collector at Barrington said "Where did all the early payers come from?"

From these remarks on the part of the local collectors it would appear that the public has become tax conscious and that their bills are considered as not to be out of the way.

All collectors agree that it's the same old taxpayers who are paying, but they are getting around earlier and not waiting for that last minute rush.

Palatine Road Still A Disgrace

A couple of years ago we called attention to the disgraceful condition of Palatine road. It was patched after that and then came another winter and spring and it was patched some more.

And now another winter has passed, the frost is coming out of the ground and once more Palatine road is a disgrace to Cook county.

It's full of holes, rough and bumpy. It has been patched and filled so much that little is left of the original construction.

That "black top" construction was not the kind of a road for this country to begin with and to make a bad matter worse, a rotten job was palmed off on to the county.

A good gravel road would be far better than that patched up thing.

Palatine road was on the first big bond issue for a paved road. Then came the war, increased costs and the road was never paved. That's over 20 years ago. Fire paved roads have been built since into countless communities, some not a thousand miles from Palatine road, but for some reason that road has remained an outcast.

Promise after promise has been made about Palatine road by county officials and still that road is a disgrace to Cook county and an insult to the people along its route.

For over 20 years the people served by Palatine road have been "sold down the river" by the county officials.

Spirited Election In Dist. 13 Results In Election Tie

District 13, Palatine township, had a big school election Saturday that resulted in a tie. Norris Kells, present board member, received 62 votes, as did also Doc Talbot.

School election ties were not confined to District 13. The same thing occurred in District 11, Barrington township where Carl Spanhake and Erwin Plote polled the same number of votes.

Expect to Open Field House Memorial Day

Every effort is being made to have the Field House ready for use by Memorial Day, 1939, and a suitable dedicatory program will be arranged. Season tickets for the swimming pool will be placed on sale in the near future for the convenience of persons who will use the swimming pool this season.

Park Commissioners, Geo. K. Volz, Geo. Glow and Elmer W. Crane, appreciate the confidence of the voters who elected them to serve the taxpayers of Arlington Heights in conducting the affairs of the Arlington Heights Park District.

For the Week

The Lutheran church of the Missouri Synod, has set aside April and May for the observance of the Saxon immigration in 1838. This settlement in Perry Co., Missouri, of 600 German Lutherans, was the small beginning of a church body that now numbers 1,500,000 souls.

St. Peter's church is participating fully in the festivities of the Centennial. All societies are made acquainted with the early history of the church and the pupils of the school, especially, are learning the story of the heroic founders of their synod.

The climax of the local celebration will be a Centennial Thanks-

## A&P Stores Create Demand for Superior Food Products

Practice of promoting nationally known brands of high standard quality has been an important factor in the creation of consumer demand for superior food products, Mr. J. P. Smith, vice president of the Chicago Division of the Great Atlantic & Pacific Tea Company, declared today.

"Nationally known food products," he said, "are not only of exceptional value to the grocery industry, but are a guarantee of high standards of quality to the consuming public which has been given a complete and accurate buying guide through advertising of well-established and reputable brands."

The A & P, alone, Mr. Smith said, has promoted the national popularity of such brands as Ann Page, Sunnyfield, and Quaker Maid products, Bokar, Red Circle and Eight O'Clock coffees, distributed solely by the A&P, as well as other nationally known brands of proven quality.

## Beaty Honored for Books Written About Arlington

**Wins Praise For  
Children's Books;  
On Sale At Sieburg's**

While a few of our merchants know that a school book has been written by John Y. Beaty, 400 E. Euclid st., Arlington Heights, which contains photographs of many of the places of business in Arlington Heights, it may not be generally known by all residents. The book was written by Mr. Beaty two summers ago and in it he used the children of Orville Baldwin.

Lloyd and Jean were taken to the various stores, to the lumber yard, to the sewage disposal plant, to the pumping station, and to many other places from which their home gets some kind of service. Photographs were made of the children making the discoveries which interest all children who begin to ask daddy questions such as: "Where does the electricity come from?"

The book which was based upon these pictures is called "Story Pictures of Our Neighbors." It is for the third and fourth grades in schools, and has just recently been adopted by the state of Texas. This means that every child in the third grade in the state of Texas this year will be reading about Arlington Heights and will look at the pictures made here. The pictures are printed in natural color. The book is interesting, not only to children, but to adults, especially those who live in "the City of Good Neighbors."

Next, Mr. Beaty used the twins of Paul Williams on So. Chestnut st. to make a book on transportation. The boys were photographed carrying bundles on their heads, dragging loads on skids riding a bicycle, and riding a log in the Des Plaines river. The name of the book is "Story Pictures of Transportation," and it is illustrated with colored photographs. This is a school book for the fourth and fifth grades.

Early in March, Mr. Beaty was informed that "Shore Ears, the Story of a Baby Whale," had been adopted by the Junior Literary Guild as one of the twelve best books of the year. This means a distribution to every member of the Junior Literary Guild, which comprises about 6,000. This book is said to be the first book ever written to portray the way whales live. It is illustrated with colored drawings made by Helene Carter of New York City.

Because so many local people have asked to buy copies of these books, Mr. Beaty has placed a few of them in Sieburg's Drug Store, where they may be had by those who wish them.

## It Happened Here

Yesterday we had a frosty morning, the kind that puts a white rim on the roofs, crisps the grasses and starts the whistling; a delicate lavender haze filled the air, lowering the ceiling perceptibly and shutting us cozily in to a friendlier, more intimate world; something brooded over the garden as the heaven had become kind and April herself might rise from stirring the leaves about the scillas blooming along the fence; it is certain she picked one stalk, in memoriam, and gave it immortality; a song sparrow trilled from the tree tops and each frosted weed chimed silver bells. The flicker suddenly became very neighborly and worked on his new home nearby to the cheerful sound of his hammer; when he sidled around the post, looking upward at the freshly chipped hole, there was the familiar gesture of reaching for hammer and nails in his jumper pockets — gold-lined jumpers, my good man, tut, tut, tap! But if the flicker scattered twigs, the fox sparrow scattered twigs and leaves in every direction as he imitated the barn yard fowl with his scratching; he considers our border a WPA project and works it over from gate to gate and back again, leaving his litter on the walk, a pretty mess for young April to see when she makes the rounds of the garden; but every spring she has met the clan of fox sparrows in the sugar bush, scratching happily in the brush pile or flying up to sing their clear, bell-like notes on frosty mornings like this. We should like to introduce Donalde Culross Peattie to the sugar bush and the grove which have been in the family name for as many years as his famous Grove has been in theirs.

Loving and kind in all her ways,

The New Royal Blue Store has opened a little ahead of schedule, and the housewarming was held Thursday afternoon and evening, but there is still plenty of time for all of the folks in the neighborhood to attend the Grand Opening, which will be Friday and Saturday, April 14th, and 15th. Both Mr. and Mrs. Allord would like to greet all of the folks in Prospect Heights, and since this is the first store in the community it is hoped that it will be a huge success. We wish these folks lots of luck in this venture.

Don't forget folks Saturday, April 15th, at 8 p. m. the Card and Bunco at the school house, Schoenbeck and Palatine roads, will be held. Mortimer, State Drainage Engineer, has been out looking over the 70 acres which was recently added to the subdivision, and he advises that it will be surveyed very shortly in order to determine what will be necessary in the way of drainage for that land. **RE-ELECT  
NEUMANN  
For Police Magistrate**

TO THE VOTERS OF ARLINGTON HEIGHTS:

I solicit your vote at the coming village election upon the record that I have made the past two years. Elected to fill a vacancy caused by the departure of the former police magistrate, I have in reality only served a half term. The past two years has given me the opportunity to demonstrate my fitness to office, my fairness to those who were brought before me and my dependability in the handling of public funds.

I have familiarized myself with the legal points involving cases that come before the court of a police magistrate. In making judicial decisions I consider the cases only on their merits. No ticket fixing is permitted. I consider only the facts, whether the defendant is a man of small means and little education or if he has the money to hire an expensive lawyer.

I remit regularly to the village treasurer and a complete itemized report is given to the board of trustees at every meeting of that body.

I can always be found day or night, ready to act promptly on emergency cases. I have given my best efforts to handle the job as the law intended.

I am an everyday citizen and ask your support as one neighbor to another.

WM. F. NEUMANN.

A person must be registered in order to vote, and if his card is not at the polling place in which he will vote this time he cannot be given a ballot.

Those who reside north of the tracks will cast their ballots in the lobby of the farm bureau building. Those who reside south of the tracks will go to the village hall.

This is the first time that two precincts have been used for local elections in Arlington Heights.

**Scolaro Invites  
Public To Parade  
And Dance**

Anthony Scolaro, independent candidate for police magistrate, is extending an invitation to the general public to take part in a parade and enjoy a free dance at Sadeck's hall Friday evening.

The parade will start from De Witt's service station on south State rd., and will end at Sadeck's hall where the dance will be held. There will be door prizes and plenty of refreshments.

**Asst. States Attorney  
Praises Work of  
Judge Neumann**

When a police magistrate receives a letter like the following, he has reason to feel that he is conducting his office in the manner that the law intended. Wm. F. Neumann, who is candidate for re-election received this week the following unsolicited letter from W. C. Rotchford, assistant states attorney.

April 7, 1939  
Judge William Neumann,  
Arlington Heights, Illinois  
Dear Judge:

I am advised that you are a candidate for re-election as Judge within the very near future. May I extend my sincere good wishes for your success so that you may continue the fine work that you have been doing in such capacity.

With kindest personal regards,  
I am  
Sincerely,  
W. C. Rotchford,  
Assistant State's Attorney

**Don't Forget  
Henry C. Nichols**

The friends of Henry C. Nichols make this last appeal in his behalf. His name appears under the Village Party candidate for Police Magistrate, in the eighth column.

In presenting him as our choice for Police Magistrate we believe we have the candidate best qualified for the office.

We believe a candidate for Police Magistrate should be Honest and Fearless.

He should have experience both in courts and in the greater experience of Human Life acquired by many years of dealing with people of all stations in life.

He should be of mature judgment and well founded in law.

Mr. Nichols for 25 years has been active in all political and Civic affairs in our Village, motivated entirely by what he believed was for the best interest of Arlington Heights, and his position on these questions was known to all. We believe this frankness should not be overlooked.

We know there is no candidate seeking this office, who has had the actual experience Mr. Nichols has in Police, Criminal, and Civil Courts. For twenty-three years he has tried cases in all our State and Federal courts, and in other States as well. During this period he became acquainted intimately with high executives, ordinary people and criminal, learning the reactions and motives that prompted their actions. This experience would be invaluable for a Police Magistrate. His interest in the young men of our village is well known. He organized the Arlington Booster club, a Boy's club and many years ago he furnished them cottages every summer at Delavan Lake. He has two boys of his own, his experience and knowledge of the young would be a valuable asset.

His name is not new, his ability is known, his sincerity and loyalty proven, his frankness a joy. WE SINCERELY AND WHOLE HEARTEDLY ENDORSE HENRY C. NICHOLS.

THE LAST CANDIDATE ON THE BALLOT FOR POLICE MAGISTRATE.

## MOVIE SCREEN THIS WEEK

### A Hardy Sequel

"Out West With the Hardy's" starring the famous Judge Hardy family, Lewis Stone, Mickey Rooney, Cecelia Parker, Fay Holden, is pictured at the Arlington Theatre next Sunday and Monday. It's a real treat for the family. A Walt Disney cartoon "Ferdinand the Bull" and an "Our Gang" comedy, fill out the program, making it an ideal show for parents and children.

### Good Companions

Tiny Starlet Janet Chapman and her faithful pal, in "Heart of the North," Technicolor adventure film now showing at the Des Plaines theatre, with Boris Karloff's new picture.

ture "Devils Island." Jackie Cooper is the star in "Scouts to the Rescue" and the first episode of this thrilling serial is included in the current program. "Jesse James" and "Tailspin" open a four-day engagement Sunday at the Des Plaines.

### Fredric March And Virginia Bruce Romp

Fredric March and Virginia Bruce romp through the merriest adventures of the year in "There Goes My Heart," Hal Roach's gay comedy romance, which begins a two-day engagement at the Catlow Theatre on Friday, April 14.

The story casts Virginia as a madcap heiress who tries to run out on her fortune and March as a reporter who tries to run out on his boss.

Virginia gives up her yacht for a job in a bargain basement and finds a new world full of walk-up apartments, kind-hearted sales girls and eccentric motorists. Then into her life comes the roving reporter and the pair have a barrel of fun, eating hamburgers, visiting skating rinks, riding in the subway—and falling in love.

Hal Roach's hilarious screen comedy, "Topper Takes a Trip," sequel to "Topper," one of last year's biggest laugh hits, opens on Sunday at the Catlow Theatre, with Constance Bennett of the latter production again cast in a light comedy role which permits her to go through a series of "dematerializations."

The story of "Topper Takes a Trip" concerns the mad, merry antics of Constance Bennett, as Marion Kerby and Roland Young, as Cosmo Topper, on the eve of the French Riviera, whither Miss Bennett has gone to "do a good deed" and where, instead, she almost upsets the Toppers' lives.

An array of talent that reads like "Who's Who in Hollywood," was assembled for "Universal's 'You Can't Cheat an Honest Man,' which comes to the Catlow Theatre on Wednesday for three days.

Heading the cast of this comedy, declared one of the best ever to come out of Hollywood, are W. C. Fields, Edgar Bergen and Charlie McCarthy. For a comedy combination you just can't beat that trio.

Fields has been a star in his own right for nearly 40 years.

**Danielle Overfed!**

There can be too much of even the best of good things, including breakfast in bed.

This was the rather uncomfortable discovery of Danielle Darrieux, beautiful French film star, while making her American cinema debut in Universal's "The Rage of Paris" which plays at the Palatine Theatre Sunday, Monday and Tuesday.

Before she reported for work on the sixth morning of production she had never eaten breakfast in bed, either on or off the screen. By the time she had been filmed eight times in the act of breakfasting among the eiderdown, she was thor-

**Errol Flynn, Aviator In Real Life, Is Dashing War Ace In 'Dawn Patrol'**

If ever he were called to the colors, there's no question but that Errol Flynn would enact a real-life version of his starring role in Warner Bros. "The Dawn Patrol," which plays Sunday, Monday, Tuesday, at the Palatine Theatre.

In the spectacular drama of wartime aviation Flynn was cast as Captain Courtney, leader of "A flight of the 50th Squadron, Royal Flying Corps, and he spent many days during production of the picture cavorting several thousand feet above terra firma in a 23-year-old Nieuport biplane.

Flynn needed no double for the spectacular flying sequences of the film. As a matter of fact, when he wasn't piloting the ancient Nieuport for actual scenes, he was putting it through difficult combat maneuvers for his own amusement.

Flynn has been flying since he was seventeen. His first flight was made as a passenger in a wheezy old wartime biplane held together principally with baling wire. That was down in New Guinea. Since then he has seldom used any other type of transportation.

"Dawn Patrol" is double featured with "The Rage of Paris."

## SCHOOL ELECTION RESULTS OF

The voting at the school election held last Saturday, was a bit heavier this year as compared with last year, 100 votes being cast this year against a total of 78 votes last year.

On the balloting for president and two trustees of the school board, R. E. Salzman received 99 votes for president and for trustees, Arvid G. Carlson received 98 votes and C. H. Angell 96 votes. There was one spoiled ballot.

A special proposition was submitted to the voters at this election on whether or not the Board should sell the old frame school building and on this proposition 89 voted for the proposition and 8 against with 3 spoiled ballots.

Individually the official ballots for the school election showed the balloting hours to be from 12 noon to 7 p. m., instead of the usual 8 p. m. with the result that a few voters arrived at the polling place too late to cast their ballots.

## Lions Sponsor Band Concert

The Arlington high school band, directed by Mr. D. G. Costain, will present its third annual spring concert in Mt. Prospect on Wednesday night, April 19, at 8:00. In addition to the band, the girls ensemble and mixed chorus will sing several selections. Various instrumental duets and solos, and several comedy numbers will round out an evening of enjoyment that will be well worth hearing. No admission will be charged.

## FREE MOVIE ON AUTO DRIVING

A recording sound film dealing with automobile driving and safety will be shown at the public school auditorium next Monday evening, April 17 at 8 p. m.

This feature sound recording film is very timely and has been shown to capacity audiences in many other suburban towns in Metropolitan Chicago and as it deals with avoidable automobile accidents and statistics to lessen the hazards of automobile fatalities it should prove particularly interesting and educational to children of high school age, who are just beginning to drive as well as to anyone operating an automobile.

The program is entirely free. It will start at 8 p. m. and the public is cordially invited to see this startling sound film.

## Concrete House In Construction At Mt. Prospect

Construction is under way at George and Evergreen sts. in Mt. Prospect, on a Waylite concrete-insulated home for Eugene F. Martin. Bert H. Lauder milk's Town and Country Estates sold the site, and plans were prepared by Mr. Clarence Dahlquist, architect, and executed by Mr. William Schott of Mt. Prospect.

The house is of modernistic design in three level demensions. The first level consists of a living room, in which wood panelling is used with decorative motifs in glass brick just off the entrance, a dining alcove and a thoroughly modern kitchen.

Stairs with iron rail lead to the second level, which consists of two bedrooms and bath while the rear feature of the house is the study on the third level.

This study is 14 ft 2 in. by 15 ft. with a charming wood-burning fire place and exits on to an L-shaped sun-deck 25 ft. by 24 ft. Fluorescent lighting lends a distinctive note to each room. Schlage hardware is used throughout and the one car garage is equipped with the overhead type of door. The entire unit is gas heated and the steel casement windows and composition

## Stores Will Close Thursday Afternoons

Starting May 4, the stores in Mt. Prospect will again close Thursday afternoons. This will apply to all stores and places of business except the gasoline service stations, garages, drug store and taverns.

The bank will continue to close at noon on Thursday and the post office will also be closed, although the lobby will be open, leaving access to the boxes and outgoing mail will be handled the same as usual.

roof add the final touch to this completely fire proof and insulated house.

Both Mr. Lauder milk and the owner, Mr. Eugene Martin, are highly enthusiastic about the Waylite concrete type of construction because it affords splendid insulating qualities, which are built into the fibre of the block itself and does not conduct heat, cold,

sound or moisture. The natural color of the block is near-white—a limestone gray. It can be painted in this natural color but generally the Waylite was waterproofed thoroughly by an additional coating of high-grade cement paint, which—as Mr. H. C. Adams of The Waylite Company says, serves two purposes—waterproofing and color.

Financing is being handled under the Federal Housing Administration plan through the Mount Prospect State Bank. Considering the many features embodied in this very livable home, the price is extremely attractive. Mr. Martin has extended Lauder milk's Town and Country Estate the courtesy of offering this house for public inspection

#### FRIDAY NIGHT LEAGUE

After the smoke cleared away Friday night Sadeck's and Karstens were tied for the lead. Grandts was one game behind. There is only one more week to go and that should be a thriller for Grandts Zephyrs and Sadeck's Ramblers will mix on alleys 5 and 6.

Karstens take on the Arlington Roller Mills on alleys 3 and 4. Wagner's will bowl the Park View Tavern boys on alleys 1 and 2.

The Arlington Roller Mills took Grandts Zephyrs for two games. Al. Popp was high for the oat grinders and Art Laurence was high for Grandts.

Park View won two games from Sadeck's. Schroeder was high for Park View. "Little" Ozzie Nelson was high for Sadeck's with 614.

Karstens won 2 games from Wagner's. Mike Drewes was high for Karstens with 541.

Pat Kelly was high for Wagner's with 545.

## Libertyville Track Coach Has Unusual Record

Crawford's Teams  
Win 8 Times In  
14 Years Of Track

by GERALD A. MC ELROY

L. M. Crawford is starting his fourteenth year as track coach at Libertyville high school and his record is the best of any coach in any sport in the conference. In his 13 years Crawford's teams have won the championship eight times, finished second on four occasions, and dropped to third just once, and that was last season.

Not only is Crawford a capable coach, but he is one of Libertyville's best teachers, heading the commercial department. He is one of the most respected and popular men in the conference and has the toughest job, that of assigning the officials.

It was some 16 years ago that Crawford graduated from Illinois State Normal University with experience in four major sports, but track his favorite and pole vaulting his specialty. At Libertyville he has assisted with both football and basketball, coaching the light-weight cage team to many successful seasons. Since his work started as director of conference officials he has given up tutoring the basketball reserve teams.

In 1932 Libertyville took third in the national meet at Stagg Field due to the remarkable work of Vange Burnett in the shot and discus events. Burnett took that year in the discus throw and finished second in the shot put for our memory does not fail us, Burnett was later a star at Northwestern.

At present two of Crawford's boys who are making good in college are the Ray brothers, one of whom high jumps for Northwestern and the other for Chicago. Crawford may be a pole vaulter but at Libertyville he has consistently turned out fine high jumpers and sprinters.

This year Crawford has a fairly well balanced squad, but his team is a bit weak in the shot put and the mile. However, it is a safe bet that this number one track coach of the conference will have another of his traditionally good teams battling for the title.

It has become common talk that if you can beat Libertyville, you are really going places in track and what's more it is the truth.

# News For The Farmer

## Farmers Asked To Pay Sales Tax

Hearings Delayed If Farm Bureau Is Notified

"A number of farmers are reporting to us that they are receiving notices to pay sales taxes that have been overlooked in the past," states Farm Adviser C. A. Hughes. "The head office has been contacted in Chicago, and a number of interviews held in order to ascertain what may be done in order to cause farmers the least trouble with reference to sales tax payments."

"The average farmer, we are quite sure, wishes to pay any sales tax that he may owe. However, farmers do not like to keep records of their sales, especially when they go to the Randolph Street Market and they are not quite sure just what their rights are."

"These notices make farmers believe that they have violated the law and will be subjected to a very severe penalty and they also do not like to have to stop during the busy time of the year to have a hearing on an alleged violation."

"The office instructed any farmers who have received a recent notice of a violation to report the same, with his name and the identification number of the letter sent him, to the Farm Adviser who will make request that appearance be delayed at the present time. However, this does not necessarily mean that the farmer will be released from a subsequent hearing. This is merely to give the farmer

an opportunity to proceed with his work during the busy season."

At a hearing Monday, April 3, attended by Wm. Rengel, chairman of the Farm Bureau marketing committee, Ed. Koehler, Christ Struck and Farm Adviser C. A. Hughes, a thorough discussion of the situation was gone into with Mr. Hudson of the revenue department. All agreed that in case a farmer sold retail, regardless of the amount, under the law he owed a tax and it should be paid.

The difficulty that presented itself was, how should a farmer know whether a purchaser was a retailer or a consumer.

"If we question a purchaser," stated Mr. Christ Struck, "he may tell us it is none of our business. He may deliberately lie or he may most likely be unable to understand why the question was asked." It was pointed out that if the present ordinance for the use of Randolph Street for farmers was enforced by the city, there would be very little difficulty with reference to the sales tax, as the scalpers and hucksters do most of the retail selling on Randolph Street.

It was also pointed out that as a rule, a farmer is usually sold out and gone by nine o'clock and that those on the street after that time were usually conducting an illegal business so far as the city is concerned and they are the ones that are causing most of the trouble.

Further conferences by the members of the committee will be held towards the working out of some kind of a plan to eliminate the difficulties that farmers are having with the sales tax.

**In France's Fields**

Every American is familiar with John McCrae's World War poem "In Flanders Fields"; but not many know that he himself was killed in 1918 and was buried in a quiet little war cemetery at Wimerueux, France, where hundreds visit his grave every year.

## Assessors And Committees Meet On Valuations

At a meeting Saturday afternoon, April 1, in the Farm Bureau office at Arlington Heights, the assessors of north Cook county and their committees met to review the progress that had been made in arriving at reasonable valuations.

The figures for Wheeling and Barrington were agreed upon by the assessors and their committees and the office of the superintendent of assessors.

In a great many cases no raises over the local assessor's figures were made. A few raises were made at some points. Later on it is contemplated that the ratio between the assessed valuations and the fair cash sale values in the county and the city of Chicago will be made. It was the general opinion that the county had some thing to gain in this respect in securing a more equitable assessment of real property.

### The Shady Garden

DON'T give up hope because part of your garden is shaded most of the day. Many flowers actually thrive in shady locations. These flowers are mostly woodland plants. Given a reasonable amount of moisture, they will be perfectly happy in the shady parts of your garden.

AMONG the shade loving plants may be mentioned—

**ANEMONE, JAPONICA.** The daisy-like flowers of white, pink, or red, that brighten the garden from September to November.

**ANTIRRHINUM.** The snapdragon with its familiar spikes of many colored flowers that bloom from early spring until frost.

**AQUILEGIA.** The Columbine. Its daisy spurred flowers are set on long graceful stems. It blooms throughout June.

**CANTERBURY BELLS.** This plant as its name implies, is covered with bell-shaped flowers throughout the early summer.

**COREOPSIS.** An ideal plant for cut flowers. It produces daisy-shaped flowers from early summer until the late fall.

**DELPHINIUM.** The Hardy Larkspur. The tall stately spikes of this flower needs no description. It will flower all summer if you keep the old flower stalks removed.

**DIGITALIS.** The foxglove. The plant grows three to five feet high, and produces imposing spikes of pink, lavender, white or yellow flowers.

**GOETIA.** A quick growing annual plant covered with soft satin-like flowers in soft shades of pink.

**MYOSOTIS.** The forget-me-not. Grows best and spreads rapidly in moist locations.

**PANSY.** Don't let them seed and they'll flower throughout the summer.

**POPPY ORIENTAL.** This variety is the large red flowering type that flowers in June.

## Walter Lindgren Named Head Of Herd Association

Organization Discusses Plans For Improving County Dairy Herd

Mr. Walter Lindgren, manager of the Big Oaks Farm, Barrington, was elected president of the Cook County Dairy Herd Improvement Association to succeed the late Albert Landmeier, at a meeting held in the Farm Bureau office Monday, April 3.

A large number of those who are in the association were present and participated in the discussion of plans to increase the size of the association to the end that a better type of dairy cow could be produced in Cook county.

"Even though dairying has apparently spread to a wider zone from the city of Chicago," stated Farm Adviser C. A. Hughes, "Cook county has an advantage in position and if we can build up a better type of dairy cow on the average farm in Cook county, we feel quite confident that we can still hold the dairy interest of this territory in spite of good roads that the outlying territory now has. There is no substitute for an advantageous position, but it can be eliminated if we proceed to replenish our herds with rows that somebody else wants to sell."

The Association plans to hold monthly meetings at various member's farms so that they may become better acquainted and promote the growth of the Association. During the last few months a number of new herds have come into the association and it is hoped that eventually we may have another Association in the county until at least one-tenth of the herds are on test.

## Hughes Advises Adding Sulphur To Garden Plot

At this time a good many people are beginning to make their gardens and most of them will want to use some kind of fertilizer. After testing a number of garden soils, Farm Adviser C. A. Hughes states that most of the soils are too sweet, having received limestone from the mortar used in building construction around the house.

For a small garden plot, perhaps the addition of two or three pounds of sulphur to each square rod will eventually decrease the amount of alkalinity in a garden soil and be beneficial to the garden. However, commercial sulphur should be used instead of high priced chemically pure sulphur.

Most gardens require phosphate and potash fertilizers. It would be our recommendation that before the garden is plowed or spaded, a rather heavy application of fertilizer containing phosphate and potash be applied, with no nitrogen in the formula.

The spading or plowing should be done without mixing the fertilizer with the soil. This may seem strange, but as phosphate is mixed with the soil it tends to revert. Therefore, if it is in little piles all through the soil it is in much better condition than when thoroughly mixed.

When the crops start to grow, for the early crops in particular, a few pounds of nitrate of soda may be used. Nitrate of soda is a dangerous fertilizer and must be used with a great deal of care. It should be sprinkled very lightly along the side of a growing row of vegetables, preferably after a rain. In a couple of weeks another application may be made.

We suggest that it be used liberally on a very small portion of one row just to see what happens when too much is put on. For all-season crops, where manure has been used liberally on the ground, nitrate is not so important, although a small addition from time to time will help out.

On lawns, nitrate of soda may be used with beneficial results. We suggest mixing 1 lb. of nitrate of soda in a tub of water and sprinkling the lawn with a sprinkling can. With this sort of mixture a lawn cannot be hurt very much. This will be especially useful in the summer time when trying conditions are experienced because of drought and heat.

**Why It Is a 'Flounder House'**

A "flounder house" is so-called because the narrow width of the house is suggestive of the shape of a flounder.

## More About Home Bureau

Mrs. Helen T. Butler, Home Adviser-at-Large, will be at the home of Mrs. Victor Reed to explain Home Bureau work and its advantages, at 2 o'clock, this Friday afternoon. All ladies interested in knowing more about Home Bureau are invited.

## Sugar Company Offers To Contract For Sugar Beets

Firm Will Take Crop In North Cook For One Year

Due to the closing down of last year's contracting company, the Lake Shore Sugar Company of Holland, Michigan, is offering to contract sugar beets for North Cook County. This is the company that contracted for south Cook County this last year. It is anticipated that in another year the old company will be ready to operate again in this territory.

In order to meet the expenses of contracting in north Cook county the Lake Shore company would like to have from 700 to 1500 acres of beets. A meeting was held at the Arlington Heights Ballroom on April 6, and attended by a number of prospective growers in this part of the county.

The contract submitted was practically the same as the contract the farmers are familiar with. Apparently the greatest difficulty will be the extra freight rates from here to Holland, Michigan. Efforts are being made to get the railroads to handle this business as economically as possible. It is felt that the railroads will be willing to cooperate in that they will want to hold the growing of sugar beets with their revenues received from hauling beets in this territory.

Another difficulty is a matter of loading machinery. The machinery may be contracted for by the Lake Shore Company if arrangements can be made. Nothing definite so far has been announced, but it is anticipated that there will not be a great deal of difficulty in this respect since the former company is likewise interested in holding the acreage here so that they may operate in another year, after their court difficulties are settled up.

A few questions should be cleared up in farmer's minds with reference to meeting this contract. First,

high as phosphate. If manure has been used on the field or if a clover crop has been grown recently, the nitrogen part of the fertilizer need not be high or it can be left out. In that case a 9-16-12 might make a very good fertilizer for beets. It is also provided in the contract that sugar beets must not be planted on land that had beets the year before.

The question was brought up about the ability of the company to take beets as fast as they are loaded out. Last year was a very favorable year for harvesting of sugar beets and the company could not take them as fast as the farmers could load them. It was suggested in case the weather be favorable for the harvesting of beets that they could be piled and covered with fodder or tarpaulins to keep them from drying out, and loaded at a time when it would be impossible to lift the beets. The company promised the use of seeders and lifters.

The meeting was well attended and a number of contracts were signed. Farmers who are interested in signing contracts would do well to get in touch with E. F. Schoppe, Bensenville, who is a field man for this company.

## 'What Happens If I Violate the AAA?' Asks a Cooperator

Gewecke Explains Why Farmer Pays No Fine If He Overplants

Recently a new signer of an AAA agreement asked, "Suppose I over-plant and it is found I owe the government, where do I have to pay my fine?" The answer is, "states Henry Gewecke, of the county committee, 'you do not have to pay the government."

"Obviously, if you do not intend to plant in the limits of your acreage you should not sign, but if you are over from some reason unknown to you, you will not have to pay a fine beyond the point that penalties will use up all your payments."

### POINTS FOR AAA COOPERATORS TO REMEMBER

The dead line for signing is April 30. If your corn acreage is exceeded you lose 6c per bushel adjustment payment on the whole of your allotment. Besides, the penalty for each acre you are over affects the payment for about 4½ acres in your allotment. For grain

allotments, such as oats, each acre over offsets about 7½ acres in the allotment. For vegetables each extra acre carries a penalty of \$20.00.

All the soybeans, millet, and sudan hay produced is non-depleting and does not figure in the grain allotment. Harvested for grain they figure the same as oats, etc. Sorghum figures as oats, etc., but not as corn.

Oats used as a nurse crop, but cut for hay where a grass stand is growing, is not depleting.

Rock phosphate must be applied on non-depleting crops for credit. That is, on alfalfa seeding where oats are cut for hay, rock phosphate will qualify.

Where different tracts under multiple ownership are farmed as one farm, combination forms must be made out and signed by the operator before April 30.
